# Welcome to Las Vegas!

Letter from  
PAUL STRAUB, M.D.  
ISHRS PRESIDENT

You are invited to attend the 3rd annual meeting of the International Society of Hair Restoration Surgery at the Las Vegas Hilton, September 5-8, 1995. If you have an interest in the present boom in hair transplantation you will not want to miss this meeting. Each year the meeting of the Society has become larger and more dynamic. In past years many of the new developments in hair restoration were introduced at the ISHRS meetings. Because of the intense interest in this field at the present time we should expect many new ideas from the large field of international speakers.

In addition, this meeting will take place in one of the fastest growing metropolitan areas in the United States as well as the top destination resort area. Las Vegas is a city of superlatives and has ample attractions for every member of the family.

Everyone doing hair restoration or interested in doing hair restoration should attend THE BIG ONE this year.

Truly yours,

Paul M. Straub, M.D., F.A.C.S.  
ISHRS President

Letter from  
JAMES E. VOGEL, M.D.  
1995 ISHRS  
PROGRAM CHAIRMAN

Believe it or not, the preparation for this 3rd Annual Meeting of the ISHRS began in Toronto last year during the 2nd Annual Meeting! Your program committee has been thoroughly dedicated to developing the most outstanding annual hair restoration meeting of the year.

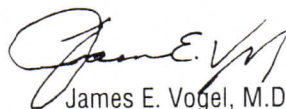

The first day of the program will offer something special for everyone! This includes a day long "Basics of Hair Restoration Course" for the surgeon new to the field, a concurrent session of video taped operations with live narration and discussion from the surgeons themselves, and for a limited number of registrants, an exciting opportunity to observe several different live hair restoration procedures at a nearby surgical center.

We have doubled the number of discussion panels on key areas of current interest. The workshop program is expanded, outstanding, and has many new additions. Also, each workshop will be repeated to insure small groups and the opportunity for many to participate. Recognizing the important role of our medical assistants, we have extended their program as well.

Emphasis on a terrific social program and the foremost amenities has also been a priority for us in planning your meeting. Special thanks to the program Co-Directors, Drs. Dominic Brandy and Walter Unger, they have worked hard on your behalf. Extra special thanks goes to Kay Evenwel without whose dedication none of this would be possible.

I look forward to welcoming you to our meeting in Vegas.

Sincerely yours,

James E. Vogel, M.D., F.A.C.S.  
1995 ISHRS Program Chairman

# "Where Should I Go?!?"

You may be overwhelmed by the number of concurrent sessions offered to you at the annual meeting. In order to give you some assistance, we recommend that in addition to the sessions you have a specific interest in, you consider attending the listed events in the following levels that you may identify yourself with:

## **BEGINNER**

- \*Full Day Basics Hair Course
- \*On-Site Workshops

## **INTERMEDIATE**

- \*Interactive Video Program
- \*On-site Workshops

## **ADVANCED**

- \*Interactive Video Program
- \*Live Operatory Workshop
- \*On-site Workshops

## **MEDICAL ASSISTANT**

- \*Medical Assistant Meeting
- \*On-site Workshops

## **SESSION DESCRIPTIONS**

### **BASIC HAIR RESTORATION COURSE**

This full day course has been designed to introduce the beginning hair transplant surgeon to all aspects of the field of hair restoration surgery. Beginners are strongly encouraged to attend.

### **LIVE INTERACTIVE VIDEO PROGRAM**

An entire day has been devoted to an in-depth video program in which participants can watch videos of live operatory procedures presented by the surgeons themselves. The audience is encouraged to interact with the surgeons throughout the presentation period and stimulate group discussion. Video presentations will be paused, replayed, and forwarded while discussion ensues.

## **DISCUSSION PANELS**

The gist of the discussion panel is to present experts' advice and opinions on topics which hold a number of different views.

## **PERSPECTIVES SESSIONS**

The perspectives session will take state-of-the-art, cutting edge technology, and present it on a specific topic or procedure.

## **VIDEO THEATRE**

A schedule is provided of video titles and presentation times which you may arrange to attend. Several titles will be repeated so that there is more than one opportunity to view popular videos. The schedule will be included in the on-site meeting registration packet in Las Vegas.

## **MEDICAL ASSISTANT PROGRAM & LUNCHEON**

Designed to assist all assistants from entry level to veterans, this program has been carefully planned to meet the topics which education and experience demand. Sharing pearls and participation in discussion groups is encouraged in order to stimulate individual involvement. The Medical Assistant Luncheon will include the first year's medical assistant meeting at which, next year's program chair and committee will be elected.

## **LIVE OPERATORY WORKSHOPS**

A unique opportunity to observe four hair transplantation surgeries. Tickets/registration required.

## **ON-SITE WORKSHOPS**

Each workshop will be offered twice. Participants may register for up to two workshops per day.

*Please note:* All workshops require additional registration and fee. Tickets will be required.

## **SOCIAL EVENTS**

The ISHRS is proud to provide its meeting registrants with all meal functions including, continental breakfasts, lunches, cocktail receptions, and the Gala Dinner/Dance in the price of your registration fee. Please indicate on the registration form those events you will be participating in.

A unique opportunity to observe four hair transplantation surgeries will be offered to a limited number of registrants who quickly enroll for this session. This will be a course directed at advanced surgeons in the field. Enrollment will only be taken on a first come, first served basis. Dr. Markman will perform a micro and minigraft combination hair transplant. Dr. Dominic A. Brandy will perform a Bilateral Occipitoparietal Scalp Lift. A live laser assisted hair transplant utilizing a super pulsed CO<sub>2</sub> laser, will be performed by Dr. Dow B. Stough. The fourth operation will be a 1500-2000 graft megasession hair transplant performed by Dr. Ron Shapiro. Participants will rotate among the four surgeries being able to observe and ask questions during the procedures. When not in rotation, participants will remain in an auditorium where each surgery will be transmitted to one of four closed circuit television monitors to view. This event is only opened to experienced surgeons in the field.

Transplant surgeons can tap into the knowledge gained by years of combined experience. The handout exchange has each participant bring 30 copies of their best handout to share. The handouts can focus on pre or post-operative care, consent agreements, operative reports, and this year, promotional materials. This workshop was very popular at our last meeting and is recommended for beginning and intermediate level surgeons.

**#102A/B Advanced Hair Photography**

*Conference Room 13/14*  
*Director: Robert Haber, MD*

High Quality photographs are essential for a busy hair surgery practice. This course is intended for surgeons of all skill levels and their staff interested in producing publication and brochure quality photographs. The unique problems of hair photography will be addressed. Both basic and advanced set-ups will be recommended, including cameras, lighting, and film. Standard views will be presented that will present your work at its best. A state-of-the-art digital imaging system will be reviewed and demonstrated.

## #103A/B What A Surgeon Needs to Know to Organize A Staff of Transplant Assistants

Salon D

Director: Joseph Greco, PA/C, PhD

This workshop will provide a complete overview of the process of selecting, training, and organizing a transplant team. Expert staff trainers from around the world will review everything from screening tests used to determine manual dexterity to the fine details of post-operative care. The course director has trained dozens of accomplished surgical assistants. Participants will have the opportunity to discuss their individual office needs and will be well prepared to assemble "The Perfect Staff." This course is highly recommended for the beginning hair restoration surgeon and his/her staff.

## #104A/B Laser Hair Transplantations

Salon E

Director: Marc Avram, MD

**Note:** This session is limited to physicians only.

This workshop will cover the basics of all lasers currently in use for hair restoration surgery. The course will be directed by laser hair surgeon, Mark Avram, and will be assisted by a number of experts in the field, including Richard Fitzpatrick, Greg Keller, David Seager, Dow Stough, and Malte Villnow. Participants will have the opportunity to discuss how a laser can be incorporated into a practice. Several lasers will be available for hands-on use, including the Sharplan Flashscanner and Coherent Lasers. The course is highly recommended for surgeons of all levels who wish to keep abreast of this latest advance in the field.

## #105A/B Megasessions & Dense Packing

Salon F

Director: William Rassman, MD

Learn first hand from a master of the technique that allows 1000 to 4000 grafts to be transplanted routinely. Methods, patient selection, anesthesia and instrumentation will be discussed. Several patients will be presented for attendees to examine and evaluate the results of Dr. Rassman's work. Ample time will be available for participants to ask specific questions on the methods of this unique approach to hair replacement.

11:00am-12:15pm

Registration required; sessions limited.

Workshops are \$50.00 each.

### #201A/B Getting Started in Scalp Reduction

Conference Room 11/12

Director: Bernard H. Cohen, MD

Scalp reduction has continued to be a time-honored method of hair restoration, in spite of its limitations. However, with the introduction of scalp stretching technology, a dramatic re-interest in the technique has evolved. This workshop is designed to introduce the surgeon to the philosophy and principles of scalp reduction, with and without adjustive stretching maneuvers. It includes patient selection, design, anesthesia, instrumentation, intraoperative tissue manipulation, closure techniques, and post operative care. Specific instrumentation, uniquely suited for scalp reduction surgery, will be emphasized with workshop director.

### #202A/B Cutting Mini Grafts from Cadavers

Conference Room 13/14

Directors: Sandy Patten, Denise Kadach, Tanya Peeke-Vout

Learn to cut mini and micrografts from strips of donor scalp. Three medical assistants with a combined total of 15 years experience, will show you a quick method of rapidly and accurately cutting minigrafts. Slides and video tapes will demonstrate simple finger movements and finger size tools used for the cutting process. Each participant will have an opportunity to practice cutting minigrafts using cadaver scalp donor strips. The goal of the workshop is to give hands-on experience so each attendee can leave with a newly acquired skill of practical value.

### #203A/B More Grafts in Less Time

Salon D

Director: James A. Arnold, MD

Hair transplantation can be shifted into high gear with a series of changes that simplify the procedure. By increasing efficiency, surgeons are able to offer more grafts per session and have better control of surgery time. Simple short cuts can speed the process and make the surgeon's work easier. Examples of the interplay between efficiency and ergonomics, tools and techniques will be demonstrated. The importance of synchronizing the work of the surgeon with a team of assistants will be emphasized. Recommended for surgeons of all levels who wish to increase their speed and efficiency.

### #204A/B Stump the Experts-Pump the Experts

Salon E

A different panel of experts will be offered at each of two sessions:

9:30am Moderator: Walter Unger, MD

Panelists: Tom Alt, M.D., Richard

Shiell, MD, Russell Knudsen, MD,

Martin Tessler, MD, Paul Cotterill, MD

11:00am Moderator: Robert T. Leonard, Jr., DO

Panelists: Carlos Uebel, MD, Patrick

Quinlan, MD, Marcelo Gandelman, MD,

and Pierre Bouhanna, MD

This workshop allows participants to bring difficult case problems to a panel of experts. Each expert will give his approach to solving the individual problems. Also, attendees will have the opportunity to ask the panel in detail on their individual techniques, fine points of surgery and their secrets to success in the field of hair restoration. This workshop is recommended for all levels of surgeons.

## #205A/B Marketing for the Cosmetic Niche

Salon F

Director: Mr. Robert Kelly

As a business consultant with Upjohn, Mr. Kelly will direct this workshop on successful strategies you can use to initiate a seminar series, identify and track patients with a patient coordinator for services and marketing, package price cosmetic services and offer cosmetically minded patients easy financing options. This workshop will be directed to those who want to launch their hair transplant practice. While this workshop will not guarantee your success, it will offer real practice tactics that have been successful in establishing a revenue generating cosmetic practice.

# Tours & Special Events

**Tuesday, September 5**

## **TOUR: Hoover Dam & Lake Mead Paddlewheel Cruise**

**9:00am - 5:00pm**

**Buses depart from Hilton Hotel main entrance**

**Fee: \$55.00 per person**

**Event #301**

Learn about the history of Las Vegas and the construction of the mighty Hoover Dam on your one-hour ride via residential areas, including the historic and quaint community of Boulder City.

Visit one of America's proudest achievements, the Hoover Dam that tamed the Colorado River, forming the world's largest man-made reservoir, Lake Mead. The dam stretches 1,244 feet across the Colorado River and rises 72 stories above its bottom, costing \$175 million for its construction. From Hoover Dam, it is a short drive to the Lake Mead Recreation area, and the Lake Mead Marina, where you will board the "Desert Princess," a 250-passenger Mississippi-style paddlewheel boat. During the one and a half hour cruise, enjoy a spectacular view of Hoover Dam from the lake, as well as the Boulder Islands, the colorful Arizona Paint Pots, Castle Reef and Sentinel Island.

A box lunch with beverage will be provided on the Paddlewheel Cruise.

## **STARLIGHT EXPRESS TICKETS**

**9:00pm**

**Fee: \$47.00 per person**

**Location: Hilton Theater**

**Event #304**

We are happy to offer ISHRS meeting attendees a special discounted ticket rate for a limited number of reserved, main floor seats. The Starlight Express was voted the number one show in Las Vegas and will take you on a unique adventure as only Andrew Lloyd Webber can. The show is promoted as the most powerful musical on earth, and you'll understand why once you've entered the story of an incredible train race which combines driving music, a laser light show, and athletic roller dancing into an exciting theatrical presentation you'll be sure to enjoy.

**Thursday, September 7**

## **TOUR: That's Entertainment**

**9:00am-12:15pm**

**Buses depart from Hilton Hotel main entrance**

**Fee: \$30.00 per person**

**Event #305**

Enjoy a 60-minute, exclusive behind-the-scenes look at the fabulous "Jubilee", the most lavish, expensive and spectacular show ever produced. The show was produced at a cost of \$10 million and features more than one hundred dancers and singers. A lead performer and showgirls from the show will give you a backstage view of costumes, dressing rooms, scenery, special effects and inner workings of a major Las Vegas review.

Along your journey, you will be shown several star's homes and learn a bit about each property as you pass by.

## **GALA DINNER/DANCE**

**6:00pm-7:00pm: Reception**

**7:00pm-11:00pm: Dinner/Dance**

**Location: Barron Room - Hilton Hotel**

**Fee: No fee/registration required**

All meeting registrants are invited to attend a party they will not soon forget. You will be transported into a world of light, energy and sound. Enjoy an evening of dining and dancing with friends and colleagues as the International Society of Hair Restoration Surgery's guests. You won't want to miss it! (Be sure to exchange your ticket voucher for an actual ticket with a table assignment at the registration desk.)
