OPERATION RESTORE

Restoring self-image, self-esteem and hair

OPERATION RESTORE recognizes the impact of hair loss due to trauma or disease on a person's well being. The program's mission is to provide hair restoration surgery to individuals with this type of hair loss and who lack the resources to obtain the corrective surgery on their own. The program will match prospective patients with volunteer physicians in order to serve the community at large.

You can make a difference. Submit your application today to participate as a volunteer surgeon in the ISHRS Pro Bono program.
