International Society of Hair Restoration Surgery

HISTORY

The modern concept of hair restoration surgery (HRS) was introduced by Norman Orentreich, MD, in 1959. His new procedure provided a reliable method for restoring hair growth in bald areas of the scalp; however, his technique remained essentially unchanged for more than 20 years, with only modest advancements and refinements. By 1990, the value of an international professional society was recognized by leaders in hair restoration surgery around the world: a society that would help hair restoration specialists share scientific and clinical knowledge and assure that scientific, clinical and ethical standards of HRS are maintained at the highest professional level. From this recognized need, the idea of ISHRS was born.

The Society was launched and incorporated on April 29, 1993, as the International Society of Hair Surgeons. The Society changed its name in May 1994, to the present, International Society of Hair Restoration Surgery (ISHRS).

The three pillars of the ISHRS are education, research, and collegiality. The annual world congress, live surgical workshops, and the *Hair Transplant Forum International* publication (a.k.a., the Forum) continue to flourish. These activities provide an international forum for information exchange and rapid diffusion of new and innovative surgical techniques and instrumentation technology.

The *Forum* was conceived and privately published by O'Tar T. Norwood, MD, of Oklahoma City in September 1990. Dr. Norwood sold the *Forum* to the ISHRS in 1995 and generously gifted back the purchase price to the Society to establish a Foundation Fund. This fund is used to help finance education and hair research projects.

A renaissance in hair transplantation surgery was set into motion by the ISHRS. The multidisciplinary, international membership of the ISHRS became a critical mass for an explosion of innovation in hair transplantation surgery. The creation of the natural and virtually undetectable hair transplant by use of microsurgery techniques is one of the developments that emerged from this period of ISHRS growth.

We salute the members, volunteer leaders, staff, industry partners and corporate supporters for their dedication and hard work over the years...**in advancing the art and science of hair restoration surgery!**

President's Message

Dear ISHRS Members,

Congratulations on your ISHRS membership and inclusion in this 2024 directory of the largest and most prestigious organization in the field of hair restoration surgery. Our Membership Directory is for your personal use and will aid you in current listings of committees, board members, directors of ISHRS Fellowship Training Programs, past awardees, special-named lecturers, the ISHRS Bylaws and Code of Ethics, and other useful information about our society.

Collegiality in one of the three pillars of the ISHRS as we are known for our friendliness and the close association of members, many who have become lifelong friends who share experiences with their families as they travel the world attending meetings. Education and research are the other two pillars of the ISHRS. Please use this directory to stay in touch with your colleagues, facilitate your research, and participate in educational opportunities.

This is the 32nd year of the ISHRS. Our first meeting, which I attended, was in Dallas, Texas in 1993. Our specialty and our society have grown greatly since then. We currently have over 1000 members from 74 countries. Our worldwide membership has expanded greatly thanks in part to the participation of the Global Council which consists of associated societies from 23 countries. Worldwide expansion has also been facilitated by the popularity of hair restoration surgery. The ISHRS has been the leader in this expansion through its educational offerings and dedication to quality results from skilled and ethical surgeons around the world.

I am honored to lead the ISHRS this year as the 32nd President but I am only a small part of this great society which is led by our ISHRS volunteer members and our management team. Our physician volunteers are the backbone of the society as they take time from their busy practices to organize the meetings, present lectures, and serve on the many committees of the ISHRS. I encourage you to make plans to join us at our 32nd annual Congress which will be held from October 16-19 in Denver, Colorado, USA.

The ISHRS is a diverse group of doctors and assistants dedicated to excellence, research, innovation, and most importantly the compassionate care of patients who trust us to treat them with the highest standards. Always keep the core purpose of the ISHRS at the forefront in all that we do, "improving quality of life for patients with hair loss through medical therapy and hair restoration surgery."

Best regards,

Bradley R. Wolf M.D., FISHRS

If you do not wish to be bound or intend to abide by this Agreement, you should not sign this Agreement. However, if you do not sign this Agreement, you will not be permitted to become or continue as an ISHRS member.

In consideration for being granted membership in the ISHRS, you agree as follows:

1. Membership. As an ISHRS member, you will enjoy the rights and privileges identified in the ISHRS's Articles of Incorporation, Bylaws, and/or other policies. The ISHRS may alter member rights, privileges, and responsibilities in its discretion and without any liability to you.

You agree to abide by the ISHRS's Articles of Incorporation, Bylaws, Code of Ethics, Code of Ethics Disciplinary Procedures, Alert Regarding Misleading and Improper Messaging, and other ISHRS policies, procedures, and rules (collectively "Governing Documents"). Without limiting the foregoing, you agree the ISHRS may discipline you as provided in the Governing Documents.

4. Disclaimer. You agree your ISHRS membership and any goods and services provided by the ISHRS in connection therewith (collectively "Services") are provided AS-IS without any representations or warranties of any kind or nature express, implied, or statutory. The ISHRS disclaims all representations and warranties, express, implied, and statutory, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, workmanship, and non-infringement to the fullest extent permitted by applicable law.

6. Waiver of Liability. YOU HEREBY WAIVE ANY AND ALL CLAIMS, ACTIONS, CAUSES OF ACTION, LOSSES, AND DAMAGES OF ANY KIND OR NATURE, YOU MAY HAVE AGAINST THE ISHRS AND/OR THE INDEMNIFIED PARTIES DIRECTLY OR INDIRECTLY RESULTING FROM, ARISING OUT OF, OR IN ANY WAY RELATED TO YOUR MEMBERSHIP IN THE ISHRS INCLUDING, BUT NOT LIMITED TO, ANY DISCIPLINE IMPOSED ON YOU BY THE ISHRS. THIS WAIVER OF LIABILITY APPLIES TO ALL CLAIMS, ACTIONS, CAUSES OF ACTION, LOSSES, AND DAMAGES OF ANY KIND OR NATURE WHATSOEVER, INCLUDING, BUT NOT LIMITED TO, DIRECT, INDIRECT, GENERAL, SPECIAL, INCIDENTAL, CONSEQUENTIAL, EXEMPLARY, STATUTORY, CONTRACTUAL, OR DAMAGES OR LOSSES OF ANY OTHER KIND OR TYPE. APPENDIX 1

In furtherance of its Exempt purpose, the ISHRS has also adopted the “[ISHRS Position Statement on Qualifications for Scalp Surgery](#)” (inserted below) in an effort to encourage professional excellence and patient safety in hair restoration surgery.

ISHRS Position Statement on Qualifications for Scalp Surgery

The position of the International Society of Hair Restoration Surgery is that any procedure involving a skin incision for the purpose of tissue removal from the scalp or body, or to prepare the scalp or body to receive tissue, (e.g., incising the FUE graft, excising the donor strip, creating recipient sites) by any means, including robotics, is a surgical procedure. Such procedures must be performed by a properly trained and licensed physician. All FUE harvesting tools, including robotic devices, are considered extensions of the hand of the operator, and as such, all operators of these devices must be physicians.

Physicians who perform hair restoration surgery must possess the education, training, and current competency in the field of hair restoration surgery.

The ISHRS believes the following aspects of hair restoration surgery should only be performed by a licensed physician:

- Preoperative diagnostic evaluation
- Surgery planning
- Surgery execution including: Donor hair harvesting, Hairline design, Recipient site creation, and Management of other patient medical issues and possible adverse reactions
- Post-operative care

The ISHRS recognizes the delegation of the listed aspects of hair restoration procedures as follows: in some countries, accredited health professional groups, for example, Physician Assistants (U.S.), Physician Associates (U.K.), Nurse Practitioners (U.S. and U.K.), Surgical Care Practitioners (U.K.), are licensed to perform medical and surgical procedures under specific criteria. These health professionals are accountable to their licensing authority for unethical conduct. In these countries, the ISHRS recognizes that such professional groups are practicing legally, and the ISHRS approves of this as long as they are practicing within the scope of their license and under the supervision of a licensed physician who performs hair surgery and possesses the education, training, and current competency in the field of hair restoration surgery.

The ISHRS believes it is unethical for an individual to travel to a state and/or country in which he or she is not licensed and perform the surgical aspects of hair restoration.

The ISHRS also believes it is unethical for a doctor to train an individual to perform surgery who is not an accredited health professional licensed to do so.

ISHRS members are required to agree to and abide by the ISHRS Code of Ethics and ISHRS Position Statement on Qualifications for Scalp Surgery. Violators will be subject to disciplinary actions.

Adopted by the Board of Governors, 11/13/2019

By signing, you represent that you acknowledge the ISHRS Position Statement on Qualifications for Scalp Surgery establishing the “best practices” standard of the ISHRS; and that you are conducting your own medical practice consistent with this standard.

APPENDIX 2

In furtherance of its Exempt purpose, the ISHRS has also adopted guidelines to help members avoid what can be universally considered as misleading and improper messages. **The following are considered misleading and improper. Websites and marketing materials will be reviewed to assure these are not included.**

ALERT REGARDING MISLEADING AND IMPROPER MESSAGING

The International Society of Hair Restoration Surgery (“ISHRS”) understands the importance of the public being informed about hair restoration surgery and the causes and scientifically proven therapies for hair loss, and recognizes many patients are misled by false or confusing messages marketed by hair restoration surgeons.

Accordingly, the ISHRS developed the Improper Messaging list below to help: (i) protect patients seeking hair restoration surgery by providing a list of items that should raise red flags; and (ii) its members avoid prohibited, improper, potentially misleading, and/or confusing messages and advertisements.

IMPROPER MESSAGING

A. Misrepresenting Credentials and Violating Intellectual Property Rights. The following publications are fraudulent, mislead the public, and violate various state and federal laws:

1. **Inaccurate Credentials.** Incorrectly claiming to be certified by the American Board of Hair Restoration Surgery (“ABHRS”) or claiming to be a member or Fellow of the ISHRS, and otherwise stating or suggesting any expertise in hair restoration surgery that is false.
2. **Misrepresenting Board Certification.** Members should identify their specific medical specialty certifying board when marketing their board certification in the public domain. Members may not claim to be board certified by the ISHRS, or to make an inference of the same. Language such as “board certified hair restoration surgeon” is not acceptable.
3. **Misrepresenting Photographs.** Publishing photographs of other physicians’ patients in any manner that states or suggests they are patients of the publishing practice.
4. **Copyright/Trademark Violations in General.** Republishing or otherwise representing the photographs, publications, tradenames, logos, or other trademarks of another practitioner without permission in violation of the owner’s copyrights and/or trademarks.
5. **ISHRS Trademark Violations.** Republishing or otherwise representing the ISHRS’s photographs, publications, name, logos and other trademarks in any manner inconsistent with the ISHRS’s Trademark Use Policy (e.g., use of Fellows Logo by non-Fellow members; use of Members Logo by anyone other than Full Members; any individual using the ISHRS’s Logo).

B. Improper Use of Staff. The following practice may mislead the public and violate various state and federal laws.

6. **Unauthorized Practice of Medicine.** Unlicensed, non-physicians performing surgical procedures.
7. **Lack of Informed Consent.** Non-physicians participating in hair restoration procedures without the patient’s informed consent.

C. Misleading Language. Use of the following terms and phrases in marketing by a hair restoration surgeon may mislead the public and violate various state and federal laws.

8. “Scarless surgery”
9. “No incision”
10. “No touch”
11. “No cutting”
12. “Cloning”
13. “Hair multiplication”
14. “Non-invasive”
15. “Eliminates the need for additional procedures”
16. “Pain free”
17. “Guaranteed results”
18. “Unlimited grafts”
19. “No risk”

By signing, you represent that you have read, understand, and agree to avoid prohibited, improper, potentially misleading, and/or confusing messages and advertisements.

A. Committees.

In addition to the standing committees identified in Section B of this Article VI, the President may designate one (1) or more committees, task forces, and/or other advisory bodies (collectively, "committees"). B. Standing Committees.

Subject to the preceding Section A of this Article VI, the Society shall have the following standing committees:

1. Executive Committee. The Executive Committee shall consist of the Officers of the Society. Subject only to the limitations set forth in this Section B of Article VI, and the applicable law, the Executive Committee shall act on behalf of the Board when a situation demands timely action by the Society, and it is not practicable to call a meeting of the Board. The Executive Committee shall determine, in its sole discretion, whether such a situation exists. The

Executive Committee shall notify the Board of the situation and inform the Board of its actions as soon as possible. The Executive Committee shall also: (i) serve as a resource for the Executive Director; and (ii) perform such other duties and responsibilities as may be assigned by the Board.

Not less than thirty (30) days prior to a regularly called meeting of the Board, the Chair of the Membership Committee shall submit a report to the Board with recommendations for election, in accordance with the nomination and election policies and procedures adopted by the Society.
4. Nominating Committee. The Nominating Committee consists of the President, Vice President, Immediate Past President, and four (4) past-presidents selected by and serving on the Past-Presidents Committee. Unless removed from office, or unable or unwilling to serve, following their respective terms: (i) the Vice-President automatically becomes the President; and (ii) the President automatically becomes the Immediate Past-President. Otherwise, the Nominating Committee shall solicit, qualify, and nominate individuals for election as officers and elected Governors. No member of the Nominating Committee is eligible for election as an officer or elected Governor. In making each nomination, the Committee shall seek individuals who possess the backgrounds, education, training, and experience that will best advance the Society's purpose. Prior to making a nomination, the Nominating Committee shall: (i) at least one-hundred and fifty (150) days before an election, request the names of potential nominees from the Voting Members; (ii) between 120 days and ninety (90) days before the election: (a) consider the names of potential nominees received from the Voting Members as well as other potential nominees; (b) confirm the qualifications of any potential nominee; (c) make available to all potential nominees copies of the Society's governing documents, including the Society's Articles of Incorporation, Bylaws, Code of Ethics, and Conflict of Interest Policy; (d) inform potential nominees of the duties of the positions for which they are being considered; and (e) obtain from potential nominees a signed acknowledgement stating: (1) they reviewed and understand the duties of the position for which they are being considered; (2) they are qualified and willing to serve in the position for which they are being considered; (3) they will, if elected, perform to the best of their abilities, the duties of the position for which they are being considered; (4) they have reviewed and understand the Society's governing documents, including the Society's Articles of Incorporation, Bylaws, Code of Ethics, and Conflict of Interest Policy and shall abide by the same; and (5) they shall complete and return to the Society the Conflict of Interest Disclosure Statement by the due date established by the Board, and, if they fail to do so, they knowingly and voluntarily resign.

The Nominating Committee shall recommend a slate of candidates ("**Slate**") to the Board on or before ninety (90) days before an election for its consideration and approval. After the Slate is approved by the Board, but not later than sixty (60) days before the election, the Nominating Committee shall submit the Slate to the Voting Members for consideration.

Alternate nomination petitions, including the names of proposed alternate candidates to any or all of those contained in the Slate, signed by no less than twenty percent (20%) of the total number of Voting Members, will be accepted between sixty (60) and thirty (30) days before the election. For purposes of this paragraph, the total number of Voting Members is determined as of thirty (30) days before the election. Alternate nomination petitions must be submitted to the Society's headquarters, in the form designated by the Nominating Committee. The Society shall maintain the form for alternate nomination petitions at the Society's headquarters. The Society shall make alternate nomination petitions available to a Voting Member upon request.

If a valid alternate nomination petition is timely received by the Society, a contested election is held at the annual meeting of the Voting Members for each office and Governor position for which at least one (1) individual was nominated by the Slate and one (1) individual was nominated by a valid alternate nomination petition.

An uncontested election is held at the annual meeting of Voting Members if no valid alternate nomination petitions are timely received, or if a valid alternate nomination petition is received, for any officer or Governor position for which there is only one nominee. Floor nominations are not permitted. The meeting chair shall ask the Voting Members to elect all uncontested nominees by acclamation.

5. Ethics Committee. The Ethics Committee shall consist of five (5) members. The number of Committee members may be increased or decreased from time to time by the Board, but in no event shall the Committee be less than three (3) members. The Committee shall receive and address ethics complaints against Society members and pending members in accordance with the Society's Code of Ethics Disciplinary Procedures. "Pending members" are individuals who submitted a completed application to the Society but the Board has not yet voted on their election. The Committee's duties, responsibilities, and manner of action will be set forth in, and governed by, the Code of Ethics Disciplinary Procedures.
6. Past-Presidents Committee. The Past-Presidents Committee consists of past-presidents of the Society, who have retained their membership, and opt-in to the Committee in a given year. The past-president who served most recently as Immediate Past-President serves as the Past-Presidents Committee Chair. The Past-Presidents Committee shall: (i) provide recommendations on specific matters, as requested by the Board; (ii) nominate the past-president Governors; (iii) select four (4) past-presidents to serve on the Nominating Committee; (iv) advise on member memorials; and (v) perform such other duties and responsibilities as may be assigned by the Board.

An uncontested election is held at the annual meeting of the Voting Members for each individual nominated as a past-president Governor. Floor nominations are not permitted. The meeting chair shall ask the Voting Members to elect the past-president nominee by acclamation.

8. Quorum. A majority of a committee shall constitute a quorum, unless otherwise provided in these Bylaws or in a resolution establishing a committee.

A committee member may participate in and act at any meeting of a committee through the use of a telephone or other communications equipment, by means of which all persons participating in the meeting can communicate with each other. Such right to dissent shall not apply to a committee member who voted in favor of the action.
13. Minutes. Minutes shall be kept of each committee meeting as directed by the Board. The secretary of the meeting shall ensure that draft minutes for each meeting are prepared and distributed to each committee member in advance of the subsequent committee meeting. The committee shall review, if necessary, revise, and approve the minutes at the subsequent meeting of the committee. Once approved, a copy of the minutes shall be provided to the Secretary of the Society to be filed in the Society's corporate records.
14. Informal Action. Any action that is required or may otherwise be taken at a committee meeting, may be taken without a meeting if a consent in writing, setting forth the action so taken, is signed by all of the committee members. The consent shall be evidenced by one (1) or more written approvals, each of which sets forth the action taken and provides a written record of approval. All the approvals evidencing the consent shall be delivered to the Secretary of the Society to be filed in the corporate records. The action taken is effective when all of the committee members approve the consent, unless the consent specifies a different effective date.

CODE OF ETHICS

of the International Society of Hair Restoration Surgery

PREAMBLE: Membership in the International Society of Hair Restoration Surgery ("ISHRS") is a privilege accorded to physicians of the highest moral and professional standards, it is not a right. The ethical principles adopted by the ISHRS define the essentials of honorable behavior for the hair restoration surgeon.

- I. The member recognizes that a greater moral responsibility is necessary in cosmetic surgery than in many other fields because of the often lack of oversight by government and/or peer review and the emotional involvement of the patient.
- II. The member acknowledges that he or she is in a position of trust and will not betray that trust.
- III. The member will not take emotional or financial advantage of patients.
- IV. The member acknowledges that he or she is in a position to affect each patient's appearance, self-confidence, and possibly the success of the patient for his or her entire life. With every treatment the lifelong effect is considered in light of continuing hair loss.
- V. The member will recommend treatment for each patient as the member would recommend for themselves or another family member under the same circumstances. This does not mean that the treatment cannot be modified to accommodate the desires of the patient.
- VI. Members will maintain truth and integrity in their advertising, always avoiding deceptive communications. If a member promotes a technique or an opinion which is not accepted by the majority of the profession as a whole, the member should acknowledge that this opinion or technique is the opinion or technique of the individual physician and not shared by the profession as a whole. Trademarking and copywriting names for common terms are discouraged.
- VII. Members will not denigrate their colleagues using false or misleading information with the intent of injuring the reputation or business of an ISHRS member or any other physician performing hair restoration surgery by any means, either directly or indirectly to include print, radio, television, Internet advertising, Internet website activity, or any other public statement made by the member or his/her representative. Violation of this code will not be tolerated and is grounds for disciplinary action.
- VIII. A member with knowledge of an illegal or improper act(s) by another physician should report such activity to the appropriate agency.
- IX. A member shall continue to study, apply and advance scientific knowledge. A member shall pass knowledge on to colleagues.
- X. The patient's confidences shall be kept private. Information will be divulged only with the permission of the patient, except as otherwise required by law.
- XI. Members will adhere to the codes of ethics of medical societies of their respective countries.
- XII. A member shall comply with: (i) all applicable laws; (ii) ISHRS's policies, procedures and governing documents including ISHRS's Bylaws, "Red Flags – Misleading & Inappropriate Messaging," "ISHRS Members Only Logo & ISHRS Meeting Logo Usage Policy", "ISHRS Membership Agreement", "ISHRS Position Statement on Qualifications for Scalp Surgery", and any other ISHRS governing documents including, without limitation, those hereafter adopted by ISHRS; (iii) the ethical codes of the medical societies, associations, and boards to which he/she belongs; and (iv) the medical staff bylaws, policies, and procedures of any facility or institution at which the member provides medical care. The foregoing compliance requirement applies to all amendments and addenda to said laws, policies, procedures, and ISHRS governing documents, and all policies, procedures, and governing documents hereafter adopted by ISHRS from time to time.
- XIII. Violation of this Code of Ethics shall be addressed in accordance with, and governed by, the Society's Code of Ethics Disciplinary Procedures.

The Code of Ethics was last amended by the membership on October 7, 2017.
